 - ✓ Identity Services
 - ✓ OPTICA™ Security Solutions compliance software for STIGs and Cyber Operational Readiness Assessments (CORAs) preparation
 - ✓ FCL: TOP SECRET
-
- **PRIMARY NAICS CODE** 541512 **SECONDARY NAICS CODE** 541519
 - **CAGE:** 9S3L5
 - **UEI:** R666FLF4LAZ3
 - **Status:** ANC 8(a)

DIFFERENTIATORS

Through our innovative services such as CSfC for remote access and OPTICA™ cybersecurity compliance software, OSC EdgeTech delivers proven government efficiency by modernizing federal technology, maximizing productivity, and ensuring secure, reliable solutions for defense and federal agencies operating in high-demand environments.

- Skilled in managing complex DoD IT projects with strict scope, schedule, and funding constraints.
- Experienced in executing cybersecurity and IT operations in high-security, mission-critical computing environments.
- CMMI and ISO supported delivery of services in secure IT environments, focusing on clear communication with customers and contracting officials.

We are supported by past performance delivering services in 30+ U.S. states and territories and multiple active Areas of Responsibility (AORs) around the world. Our successful program experiences are supported by corporate Capability Maturity Model Institute (CMMI) Maturity Level (ML) 3 appraisal, ISO 9001:2015, ISO/IEC 27001, and ISO/IEC 20000 certifications.

PAST PERFORMANCE

- **CSfC SWA-TS3** is an E&I contract for the Army across the Central Command (CENTCOM) Area of Responsibility (AOR), including Afghanistan, Iraq, Kuwait, Jordan, Qatar, Bahrain, Egypt, Israel, UAE, and Saudi Arabia.
- **HRC's ITIS3** project enables the Army's Human Resources Command (HRC) to direct and sustain an operational and ready fighting force. ITIS3 requires the operational sustainment of the data centers, data center hosting, networks, servers, storage, mainframe, private and public cloud hosting, applications, desktops, mobile computing, and other Information Technology (IT) capabilities and environments.

- **C2IE** The objective of the Command and Control of the Information Environment (C2IE) program is to provide the Joint Force with an Artificial Intelligence (AI) enabled, Machine Learning (ML), scalable enterprise Command and Control (C2), Situational Awareness (SA), and data analytics capability to support Globally Integrated Operations (GIO) across the DoD. Through Air Force Life Cycle Management HNC (AFLCMC/HNC), this effort provides the DoD technical and expert level support to the Joint Staff, Combatant Commands, and the Services supporting GIO.
- **SOOP** provides for application development for the US Army Recruiting Command. The enterprise consists of over 120 applications and services. The database technologies supporting these applications and services range from Oracle, MS SQL and Sybase.

SOLE SOURCING OSC EDGETECH FOR FEDERAL ACQUISITIONS

For 8(a)-certified Alaska Native Corporations (ANCs) like OSC EdgeTech, a Justification and Approval (J&A) is not required for sole source awards under \$100 million for the Department of Defense and under \$25 million for civilian agencies. A J&A is a formal document that outlines the statutory authority, rationale, and supporting justification for awarding a contract without full and open competition. Under SBA regulations (FAR 19.805-1(a)(2)), the 8(a) sole source contracting method allows Federal agencies to engage in direct negotiations with eligible 8(a) firms such as OSC EdgeTech, even in cases where two or more qualified 8(a) firms could perform the work. This provision makes the 8(a) program the only federal small business program that permits sole source awards under these specific conditions, offering agencies a streamlined and legally supported pathway to meet mission requirements efficiently.

PROCESS BENEFITS

The 8(a) Sole Source Vehicle provides agencies a simplified and shortened acquisition procedure:

- Reduced acquisition cycle, measured in days
- Lowered administrative costs
- Initiate contract with a high-level statement of work
- Directly negotiated best value pricing
- Credit for small business promotion within the agency

FOR INQUIRIES CONTACT:

sales@oscedgetech.com
855-EDGETECH
(855-334-3832)

IF YOU ARE AN END USER: Submit items 1-3 together to the Contracting Officer at the same time.

1. Contact the Contracting Officer (CO) by email or letter requesting the procurement be awarded as an 8(a) sole source to OSC EdgeTech. A J&A is not required per FAR 6.302-5(c)(2)(iii) if the award is under \$4.5M, or under \$100M for DoD / \$25M for civilian agencies when awarding to an ANC.
2. Include OSC EdgeTech's capabilities statement.
3. Provide the CO with SBA contact info:

Irene Gonzalez, SBA Economic Development Specialist
(208) 334-1673 | irene.gonzalez@sba.gov
Boise District Office 380 E. Parkcenter Blvd. Ste. 330 Boise, ID 83706

4. Separately, email Ms. Gonzalez with the CO's name, email, phone number, and PR number (if available). She will confirm OSC EdgeTech's eligibility and respond directly to the CO.

IF YOU ARE A CONTRACTING OFFICER:

1. Draft an offer letter to Ms. Irene Gonzalez, the SBA Business Opportunity Specialist assigned to OSC EdgeTech, formally offering the requirement to the 8(a) program. Once the SBA approves the offer letter, an acceptance letter will be sent back to you confirming the award may proceed under the 8(a) program.
2. Upon SBA acceptance, you may begin negotiations directly with OSC EdgeTech. Pricing, terms, and validation of the requirement are addressed during this phase.
3. Finalize the award by completing a Standard Form 1449 (SF1449) to issue the contract to OSC EdgeTech under the 8(a) Sole Source authority. If you need assistance drafting the offer letter or completing the SF1449, please contact Ms. Gonzalez (see contact information above).
4. For complete 8(a) program procedures, refer to FAR Subpart 19.8: <https://acquisition.gov/far/subpart-19.8>
